Multiple Choice Questions

1) The characteristics of a healthful diet include
   A) moderation and low-energy.
   B) balance and low-fat.
   C) adequacy and value.
   D) nutrient density and variety.
   Answer: D
   Diff: 1
   Skill: Remembering/Understanding
   Learning Outcome: 2.1
   Chapter/Section: 2.1

2) Which of the following is an ounce-equivalent serving of grains from the USDA Food Patterns?
   A) 1 cup of cooked brown rice
   B) 2 slices of bread
   C) 1 cup of soymilk
   D) two small pancakes
   Answer: D
   Diff: 3
   Skill: Applying/Analyzing
   Learning Outcome: 2.5
   Chapter/Section: 2.5

3) Milk is a good source of calcium but a poor source of iron. Meat is a good source of iron but a poor source of calcium. A diet incorporating both of these foods demonstrates what characteristic of a healthful diet?
   A) moderation
   B) balance
   C) nutrient density
   D) freshness
   Answer: B
   Diff: 3
   Skill: Applying/Analyzing
   Learning Outcome: 2.1
   Chapter/Section: 2.1
4) A nutrient-dense snack provides
A) all essential amino acids and at least 6 vitamins and minerals.
B) a high level of protein for a low level of saturated fat.
C) a high level of nutrients for a low number of Calories.
D) a high level of both nutrients and Calories.
Answer: C
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.1
Chapter/Section: 2.1

5) The basic biological urge to eat when our body senses that we need food is
A) olfaction.
B) hunger.
C) appetite.
D) satiety.
Answer: B
Diff: 1
Skill: Remembering/Understanding
Learning Outcome: 2.2
Chapter/Section: 2.2

6) The psychological desire to eat stimulated by the sight, smell, or thought of food is
A) olfaction.
B) hunger.
C) appetite.
D) satiety.
Answer: C
Diff: 1
Skill: Remembering/Understanding
Learning Outcome: 2.2
Chapter/Section: 2.2

7) Which of the following plays a key role in stimulating appetite and enabling us to taste foods?
A) olfaction
B) satiety
C) conditioned taste aversion
D) cultural conditioning
Answer: A
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.2
Chapter/Section: 2.2
8) Braeden tends to eat whenever he feels bored. His boredom is an example of a(n)
A) emotional cue.
B) cultural cue.
C) biological hunger cue.
D) sensory cue.
Answer: A
Diff: 3
Skill: Applying/Analyzing
Learning Outcome: 2.2
Chapter/Section: 2.2

9) After learning about the mistreatment of animals at slaughterhouses, Laura has become a vegetarian. Her dislike for meat, which she once enjoyed, is an example of
A) conditioned taste aversion.
B) cultural conditioning.
C) internal cues.
D) social conditioning.
Answer: A
Diff: 3
Skill: Applying/Analyzing
Learning Outcome: 2.2
Chapter/Section: 2.2

10) Which of the following foods is exempt from standard food labeling regulations?
A) cereal
B) bread
C) meat
D) yogurt
Answer: C
Diff: 3
Skill: Applying/Analyzing
Learning Outcome: 2.3
Chapter/Section: 2.3

11) The information provided on a food label that identifies how much a serving of food contributes to your intake of nutrients based on 2,000 Calories a day is called the
A) ounce-equivalent.
B) Percent Daily Values.
C) Dietary Reference Intakes.
D) footnote.
Answer: B
Diff: 1
Skill: Remembering/Understanding
Learning Outcome: 2.3
Chapter/Section: 2.3
12) Which of the following is NOT required on a food label?  
A) net contents of the package  
B) statement of identity  
C) name and address of the vendor  
D) taste of the food  
Answer: D  
Diff: 1  
Skill: Remembering/Understanding  
Learning Outcome: 2.3  
Chapter/Section: 2.3

13) The Nutrition Facts panel on a box of granola indicates that one serving contains 1 gram of saturated fat and 2 grams of unsaturated fat. The label on this product is allowed to state that it is  
A) fat free.  
B) low fat.  
C) saturated fat free.  
D) reduced Calorie.  
Answer: B  
Diff: 3  
Skill: Applying/Analyzing  
Learning Outcome: 2.3  
Chapter/Section: 2.3

14) Jack is a college athlete who requires 2,800 kilocalories a day to support his total energy needs. Even though Jack likes many different foods and makes it a point to try new things, he consumes only approximately 1,600 kilocalories a day. Which one of these characteristics of a healthful diet is Jack missing?  
A) adequacy  
B) balance  
C) moderation  
D) variety  
Answer: A  
Diff: 6  
Skill: Evaluating/Creating  
Learning Outcome: 2.1  
Chapter/Section: 2.1
15) Suzie generally prepares the majority of meals for her family. Even though she always prepares meals that are high in nutrients, she tends to make the same meals repeatedly. Which one of these characteristics of a healthful diet is missing from Suzie's meal planning?
A) adequacy
B) balance
C) moderation
D) variety
Answer: D
Diff: 6
Skill: Evaluating/Creating
Learning Outcome: 2.1
Chapter/Section: 2.1

16) Which of the following would NOT be included in the net contents component of a food label?
A) weight in grams
B) number of servings
C) volume in fluid ounces
D) numerical count of items in package
Answer: B
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.3
Chapter/Section: 2.3

17) Which part of a food label is the primary tool for determining the healthfulness of the product?
A) Nutrition Facts panel
B) statement of identity
C) net contents of package
D) name and address of the manufacturer
Answer: A
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.3
Chapter/Section: 2.3
18) According to the USDA Food Patterns, which of the following foods is NOT a food that is considered to have empty Calories?
A) chocolate cake
B) cream cheese
C) fruit drinks
D) grapes
Answer: D
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.5
Chapter/Section: 2.5

19) The amount and %DV per serving of which of the following is NOT identified on the Nutrition Facts panel?
A) sodium
B) vitamin E
C) dietary fiber
D) cholesterol
Answer: B
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.3
Chapter/Section: 2.3

20) A set of nutrition principles developed by the USDA and the HHS to help promote health and reduce the risk of chronic disease is called
A) Food Fundamentals.
B) the Dietary Guidelines for Americans.
C) the Mediterranean Diet.
D) the DASH Diet.
Answer: B
Diff: 1
Skill: Remembering/Understanding
Learning Outcome: 2.4
Chapter/Section: 2.4

21) The 2015-2020 Dietary Guidelines for Americans advise that you
A) keep your intake of sodium to no more than 10% of total Calories.
B) keep your intake of cholesterol to no more than 10% of total Calories.
C) keep your intake of alcohol to no more than 10% of total Calories.
D) keep your intake of added sugars to no more than 10% of total Calories.
Answer: D
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.4
Chapter/Section: 2.4
22) To maintain a healthful weight, the 2015-2020 Dietary Guidelines for Americans recommend
   A) engaging in recommended levels of physical activity.
   B) focusing on "good" and "bad" individual foods, food groups, and nutrients.
   C) strictly avoiding added sugars.
   D) consuming no more than 2,000 Calories a day.
   Answer:  A
   Diff: 2
   Skill: Remembering/Understanding

   Chapter/Section: 2.4

23) Excess sodium in the diet is linked to what disease in some individuals?
   A) cancer
   B) hyperactivity
   C) obesity
   D) high blood pressure
   Answer:  D
   Diff: 1
   Skill: Remembering/Understanding
   Learning Outcome: 2.4
   Chapter/Section: 2.4

24) Which of the following foods is likely to contain the highest level of sodium?
   A) deli cold cuts
   B) milk
   C) a salad sprinkled with salt
   D) a slice of banana bread
   Answer:  A
   Diff: 3
   Skill: Applying/Analyzing
   Learning Outcome: 2.4
   Chapter/Section: 2.4

25) Servings in the proteins group of the USDA Food Patterns are represented in
   A) grams.
   B) ounce-equivalents.
   C) percentages.
   D) Calories.
   Answer:  B
   Diff: 1
   Skill: Remembering/Understanding
   Learning Outcome: 2.5
   Chapter/Section: 2.5
26) Julie is a vegetarian—the only animal-based foods she consumes are dairy products and eggs. Which of the following statements about Julie's diet is TRUE?
A) Julie's diet is unhealthful because it lacks adequacy.
B) Julie's diet is unhealthful because it lacks variety.
C) Julie's diet is unhealthful because it lacks nutrient density.
D) Julie's diet is not necessarily unhealthful.
Answer: D
Diff: 3
Skill: Applying/Analyzing
Learning Outcome: 2.1

27) How does MyPlate accommodate ethnic variations?
A) It includes a guide to eating out healthfully in Chinese, Indian, Italian, and Mexican restaurants.
B) It is based on the DASH diet.
C) It recommends food groups, not specific food choices.
D) It accounts for individual variances in gender and age.
Answer: C
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.5
Chapter/Section: 2.5

28) Which statement BEST describes nutrient density?
A) Choose a number of different foods within any given food group.
B) Consume a variety of foods from the five major food groups every day.
C) Plan your entire day's diet so that you juggle nutrient sources.
D) Consume foods that have the most nutrients for their Calories.
Answer: D
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.1
Chapter/Section: 2.1

29) Which of the following foods has the greatest nutrient density?
A) 1 cup of strawberry Lifesavers (100 kcal)
B) 2 tablespoons of strawberry jelly (100 kcal)
C) 8 fluid ounces of strawberry soda (100 kcal)
D) 1 cup of fresh strawberries (100 kcal)
Answer: D
Diff: 3
Skill: Applying/Analyzing
Learning Outcome: 2.1
Chapter/Section: 2.1
30) Moderate alcohol consumption for men is defined as consuming
A) no alcohol at all.
B) no more than one drink per week.
C) no more than one drink per day.
D) no more than two drinks per day.
Answer: D
Diff: 1
Skill: Remembering/Understanding
Learning Outcome: 2.4
Chapter/Section: 2.4

31) Including fiber in your diet is beneficial to your GI tract, but consuming excessive amounts of fiber can result in the loss of nutrients. This statement is an example of which of the characteristics of a healthful diet?
A) adequacy
B) nutrient density
C) variety
D) moderation
Answer: D
Diff: 3
Skill: Applying/Analyzing
Learning Outcome: 2.1
Chapter/Section: 2.1

32) Alissa consumes about 3,200 mg of sodium per day. Following the 2015-2020 Dietary Guidelines for Americans would require that Alissa
A) cut her sodium intake by about 500 mg a day.
B) cut her sodium intake by about 1,000 mg a day.
C) maintain her sodium intake at about this level.
D) increase her sodium intake by about 300 mg a day.
Answer: B
Diff: 3

52) Serving sizes of prepared foods purchased at grocery stores and restaurants are generally
A) smaller than the USDA serving-size standards.
B) the same as USDA serving-size standards.
C) larger than USDA serving-size standards.
D) not able to be compared to USDA serving-size standards.
Answer: C
Diff: 2
Skill: Remembering/Understanding
Learning Outcome: 2.5
Chapter/Section: 2.5

53) The term used in the USDA Food Patterns that describes the energy derived from solid fats and/or added sugars is
A) discretionary Calories.
B) extra Calories.
C) empty Calories.
D) nutrient-poor Calories.
Answer: C
Diff: 1
Skill: Remembering/Understanding
Learning Outcome: 2.5
Chapter/Section: 2.5
54) Which of the following is a key recommendation of the USDA Food Patterns?
A) Make all your grains whole grains.
B) Eat 5 to 9 servings of vegetables a day.
C) Drink milk.
D) Go lean with protein.
Answer: D
Skill: Remembering/Understanding
Learning Outcome: 2.5
Chapter/Section: 2.5

55) The 2015-2020 Dietary Guidelines for Americans recommends that you
A) drink only water, milk, or 100% fruit juice.
B) follow a healthful eating pattern across the lifespan.
C) focus on consuming at least one or two nutrient-dense foods every day.
D) increase your consumption of whole foods, and limit your consumption of processed foods.
Answer: B
Skill: Remembering/Understanding
Learning Outcome: 2.4
Chapter/Section: 2.4

56) Which of the following is NOT one of the recommendations of the 2015-2020 Dietary Guidelines for Americans?
A) Avoid red meat, butter, cheese, and eggs.
B) Choose nutrient-dense foods and beverages across and within all food groups.
C) Support healthful eating patterns for everyone.
D) Consume alcohol in moderation, if at all.
Answer: A
Skill: Remembering/Understanding
Learning Outcome: 2.4
Chapter/Section: 2.4

57) The FDA requires nutrition labeling
A) in every restaurant, café, cafeteria, and food kiosk in the United States.
B) on menus in sit-down restaurants only.
C) in fast-food restaurants but not other retail food establishments.
D) in chain restaurants and many other retail food outlets.
Answer: D
Skill: Remembering/Understanding
Learning Outcome: 2.6
Chapter/Section: 2.6
58) Miguel's doctor has recommended that he consume less saturated fat. At his favorite fast-food restaurant, Miguel chooses a grilled chicken sandwich. The menu states that the sandwich contains 460 Calories, and 6 grams of saturated fat. What is the percentage of Calories from saturated fat in this choice?
A) 7%
B) 12%
C) 17%
D) 22%
Answer: B
Diff: 3
Skill: Applying/Analyzing
Learning Outcome: 2.6
Chapter/Section: 2.6

59) Mark weighs 254 pounds and would like to lose weight. He starts a walking program that expends 1.2 kcal/pound/hour. If he walks 45 minutes a day for one week, how many Calories will he burn in one week?
A) 800 kcal
B) 1,200 kcal
C) 1,600 kcal
D) 1,800 kcal
Answer: C
Diff: 3
Skill: Applying/Analyzing
Learning Outcome: 2.5
Chapter/Section: 2.5

60) MyPlate is both a graphic and
A) a database identifying the nutrients in thousands of common foods.
B) an interactive website providing personalized diet planning.
C) a diet-analysis software package.
D) a nutrition textbook.
Answer: B
